* 2 Years warranty on all parts with unlimited mileage and additional 1 year or up to 100,000 kilometers (which ever comes first) for engine and transmission

- The above prices include Import Taxes, VAT 19%, Registration and Road Tax.
- Prices and equipment may change without prior notification.

Fuel

From 1 September 2017, certain new vehicles will be type-approved using Worldwide Harmonised Light Vehicle Test Procedure (WLTP) according to (EU) 2017/1151, as last amended, which is a new, more realistic test procedure for measuring fuel consumption and CO₂ emissions. From 1 September 2018 the WLTP will fully replace the New European Drive Cycle (NEDC), which is the current test procedure. During NEDC phase-out, WLTP fuel consumption and CO₂ emissions are being correlated back to NEDC. There will be some variance to the previous fuel economy and emissions as some elements of the tests have altered, i.e. same car might have different reported fuel consumption and CO₂ emissions.
