

# TEAVE VÄGA OHTLIKE AINETE OHUTU KASUTAMISE KOHTA

## REACH-MÄÄRUSE ARTIKKEL 33 VÄGA OHTLIKE AINETE KOHTA

Hea klient!

REACH-määruse (EÜ nr 1907/2006) artikli 33(1) eesmärk on võimaldada tarnitavate toodete saajatel võtta asjakohaseid riskijuhtimismeetmeid, mis võivad tuleneda toodetes leiduvate, kehtivas autoriseerimisele kuuluvate kandidaatainete loetelus sisalduvate väga ohtlike ainete (VOA) olemasolust, eesmärgiga tagada selliste ainete ohutu kasutamine.

FORD toetab nii REACH-määruse põhieesmärke üldiselt kui ka artikkel 33(1) eesmärke eraldi võetuna, need ühtivad meie püüdlustega edendada meie toodete vastutustundlikku tootmist, käitlemist ja kasutamist.

### VÄGA OHTLIKE AINETE MÄÄRATLEMINE

Meie parima teadmise kohaselt, mis põhineb meie tarneaheelast saadud teabel ja meie endi tooteandmetel, on toodete komponentides leiduvad massiosa 0,1% ületavas koguses VOAd esitatud konkreetse sõiduki/osa asjaomases väga ohtlike ainete loetelus.

### Täpne teave väga ohtlikke aineid sisaldavate toodete ohutu kasutamise kohta

Kui on kohaldatav, lisatakse täpne teave väga ohtlikke aineid sisaldavate toodete ohutu kasutamise kohta konkreetse sõiduki/osaga kaasas olevasse asjaomasesse väga ohtlike ainete loetellu.

### Üldine teave toodete ohutu kasutamise kohta

Iga FORDi sõidukiga on kaasas omaniku käsiraamat, kus on toodud sõiduki omanikele/kasutajatele mõeldud teave ohutu kasutamise kohta. FORDi poolt antav teave sõidukite remontimise ja hoolduse ning originaalosa kohta sisaldab ka teeninduspersonalile suunatud teavet ohutu kasutamise kohta.

Kui sõiduki osades leidub VOAsid, on konkreetse sõiduki/osa juurde kuuluvas väga ohtlike ainete loetelus näidatud VOAsid kasutatud selliselt, et nende potentsiaalne kokkupuude klientidega on minimaalne ning oht inimestele ja keskkonnale on välistatud, kui sõidukit ja selle osi kasutatakse ettenähtud viisil ning remont, hooldus ja korrashoid viiakse läbi kooskõlas nende tegevuste tehniliste juhendite ja tööstusharu heade tavadega.

Euroopa Liidu õigusaktide kohaselt tohib kasutuselt kõrvaldatud sõidukit kõrvaldada üksnes tegevusloaga töötlemiskojas. Sõiduki osade kõrvaldamisel tuleb järgida kohapeal kehtivaid õigusakte ja kohalike omavalitsuste juhiseid.

## Mudel: Ford Mondeo

ECHA kandidaatainete loetelul põhinev väga ohtlike ainete loetelu  
seisuga 1. juuli 2021

Täpne teave väga ohtlike aineid sisaldavate toodete ohutu kasutamise  
kohta

Täpne teave ohutu kasutamise kohta pole nõutav – järgige üldist teavet toodete  
ohutu kasutamise kohta.
